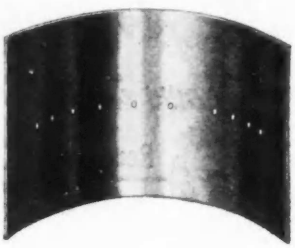
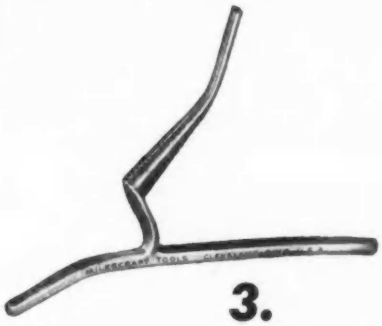
HERE ARE THE ADVANTAGES that SELL Milescraft Trowels



1.

2.



3.

These exclusive features were developed three ways. By our purchase of additional manufacturing facilities. (The complete trowel division of the E. C. Atkins & Co.—The Atkins Trowel Line.) From the joint experience of Atkins and Milescraft Engineers. Third, from extensive field research . . . the man on the job wants these features:

1. SWEDISH SPRING STEEL BLADES. The steel for all Milescraft Lite-Wate Finishing Trowels is imported direct from Sweden. There is no finer spring steel in the world.

2. COMFORTABLE HANDLE . . . HARDENED RIVETS. The wooden handle is lightweight, splinterless and comfortable. The heads of the rivets are hardened to the same degree as the spring steel blade.

3. FORGED ALUMINUM MOUNTINGS. The aluminum mounting is drop-forged. They withstand the severe deformation shown without breaking or cracking. You can bend the handle of these trowels to fit any size hand.

See your favorite jobber for more information about Milescraft Lite-Wate Finishing Trowels.
